Dear Ed:

You really dig up unusual subjects and your article on Bowne in Numismatic News of June 17, 1997 is another one. Congratulations.

Incidentally, where did you get the data that the Bank of New York was "the bank". The Bank of North America was incorporated in 1781 by the Continental Congress and chartered to do business in New York ~~in 1783~~ on April 11, 1782. ~~It~~ I wonder if it opened for business. Keep writing,

Eric P. Newman

Dear Mary Ann & Ed:

One of the nicest pieces of mail I have received was notice of your decision to have a St. Louis home. Welcome. We want to celebrate the event at the first opportunity when both of you will be here. Please give us previous notice.

We have been friends for endless years but our geographical separation and our 36 hour days of devotion and duty to the ANA has kept us from sharing so much which we have in common. Now we may be able to make up for that lapse. I have not forgotten the lovely evening I had at your home with the Hubbards, etc.

Numismatics has brought tremendous pleasure and excitement into all of our lives even though we both have been involved in the controversy which goes with the territory.

Thank you for commenting on the education center at the Barnes Jewish Hospital. My family did this for me without my participation until the final period when I signed something. It is used continually by the public as well as the medical school and the hospital. I even go there when there is a cancer survivor celebration every two years as well as to fascinating lectures.

We will visit Cuba on April 4 to see how they are getting along.

Our best to both of you,

Eric P. Newman

P.S. Did you read my article on the Fake Coin Club of America in the November 2002
